Subject FOLLOW-UP ON AVAILABILITY SESSION

Gary, one item that I checked on during our April 5 call was to contact the Region 5 Community Involvement Coordinator for OAZ, Joe Munoz, and discuss whether there needed to be an availability session before Entact mobilized for the RI field work.

Joe thought that we could probably get by without an availability session. After I provide input to him, he'll issue a notice to the community of the upcoming field work. If the community expresses enough interest after reading the notice, we would have an availability session. After the notice is mailed, we could also hear from Mayor Bregen or his staff, which could prompt a meeting as well. I'm assuming Mayor Bregen is still in office.
